

## Important news for all former EMCORE RF-Optic customers!

On April 21, EMCORE Corporation officially announced that it had shut down its broadband business segment as part of its restructuring program designed to reduce annual costs and expenses. Therefore, it is **discontinuing its defense optoelectronics product lines**, leaving many customers in the lurch.

As RFOptic, we are here to help any company looking for a suitable replacement to meet their RF-Optic needs. We offer **RFoF up to 6.0GHz**, **RFoF HSFDR up to 40GHz**, and **indoor/outdoor end-to-end solutions**. We also provide **Optical Delay Line (ODL)** up to 40GHz and **Altimeter RADAR Test** solutions.

To learn more about our **RFoF solutions for 5G**, **EW & RADAR**, and customized subsystems, visit our website at **[www.rfoptic.com](http://www.rfoptic.com)**

Why choose us?

1. We are a leading provider of high-value RF-Optical products tailored to the needs & requirements of customers
2. We quickly respond to customer inquiries & have fast delivery times
3. We provide excellent pre/post support, including troubleshooting

Contact us now to discuss how we at RFOptic can help you.
